

Aman Soni

Jhalawar, Rajasthan, India | +91-9352460755 | amansonistrive@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in React, JavaScript, HTML5, CSS3, and responsive web development. Built interactive frontend products with reusable components, client-side logic, debugging, and UX-focused design, while developing working knowledge of Node.js, REST APIs, and MySQL. Strong foundation in Data Structures & Algorithms, OOP, DBMS, Operating Systems, and Computer Networks, with a focus on building practical products using modern development and AI-assisted workflows.

EDUCATION

Poornima College of Engineering, Jaipur **2021 – 2025**
Bachelor of Technology, Computer Science – Cyber Security **CGPA: 8.17/10**

PROFILES

Personal developer profile featuring selected projects, technical work, and links to GitHub, LinkedIn, CodePen, LeetCode, HackerRank, and Code360. Portfolio includes live demos, GitHub source code, and project videos.

Personal Developer Profile

TECHNICAL SKILLS

Programming	JavaScript, C++, SQL
AI & Generative AI	Claude, ChatGPT, Gemini, Grok, Emergent, Prompt Engineering
Frontend	React.js, HTML5, CSS3, Responsive Web Design
Backend	Node.js (Learning), REST APIs
Database	MySQL, SQL Queries, CRUD Operations, Database Management
Core Computer Science	Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
Development Tools	Git, GitHub, CodePen, VS Code
Professional Skills	Product Thinking, Problem Solving, Debugging, Communication, Team Collaboration

PROFESSIONAL EXPERIENCE

React Developer Intern | The Entrepreneurship Network (Remote) **Jun 2025 – Aug 2025**

- Developed responsive React interfaces using HTML5, CSS3, and JavaScript with emphasis on usability and consistent UX.
- Built reusable UI components and contributed to feature development and iterative product improvements.
- Debugged frontend issues, resolved UI inconsistencies, and improved application performance and reliability.
- Collaborated with developers using Git/GitHub and structured development practices, including code reviews.
- Used Generative AI tools to accelerate prototyping, debugging, feature implementation, and development workflows.

PROJECTS

Jigsaw **Live Demo**

HTML5 | CSS3 | JavaScript | Node.js | MySQL

- Building an interactive browser-based puzzle application with responsive UI, reusable components, and JavaScript-driven state management.
- Implemented piece interaction, placement validation, state updates, and real-time user feedback for smooth gameplay.
- Designed semantic HTML, modular CSS, and responsive layouts for consistent behavior across screen sizes.
- Extending the application with Node.js and MySQL for persistent data, backend workflows, and scalable architecture.

SheetCraft **Live Demo**

React.js | JavaScript | Node.js | MySQL

- Developing a spreadsheet-style web application for creating, editing, and managing tabular data through an interactive browser interface.
- Engineered cell selection, editing workflows, state handling, and real-time UI updates using React.js and JavaScript.
- Structured reusable frontend components and responsive layouts to improve maintainability, consistency, and usability.
- Integrating Node.js and MySQL for authentication, persistent data storage, and backend-driven spreadsheet workflows.

CERTIFICATIONS

- | | |
|---|---|
| • Full Stack Web Development with Generative AI (Ongoing) | • Introduction to Artificial Intelligence |
| • Introduction to Natural Language Processing | • Introduction to Data Science |
| • Data Structures & Algorithms in C++ | • HackerRank SQL Certificate |
| • AMCAT Employability Assessment Certification | |

ACHIEVEMENTS

- Solved 300+ Data Structures & Algorithms problems across LeetCode, Code360, and other coding platforms.
- Solved SQL and frontend development challenges across popular coding platforms.
- Developed and shared reusable CodePen components for rapid frontend prototyping and code reuse.
- Built AI-assisted software projects using Claude, ChatGPT, Gemini, Grok, and Emergent for prototyping, debugging, and development.
